

List of supplies for Tech-8

Please bring to class each day:

- Pens/Pencils
- Small spiral notebook for writing notes (about 8" x 6" or smaller)
- Hard plastic portfolio or sturdy pocket folder for keeping handouts and your printed work neat
- USB Key – an essential – I will explain about this in class. If you already have one, terrific! If you want to buy one, get it when it goes on sale. I buy most of my USB keys at Staples or Best buy, but most retail outlets in our area have them available.

We typically use the following software programs in class:

- Microsoft Office Suite 2002 (Word, PowerPoint, Excel, Publisher)
- Adobe Photoshop Elements (free trial available online)
- Inspiration Software (free trial available online)

Must you buy any software? If you don't have MS-Office, you can buy the student teacher edition, but make sure to save your files in 2002 format so they can be used at school.

If you have any questions, please see me in class or email me before you buy USB keys or any software... see eCHALK for my email address.
